CAREER OBJECTIVE

Aspiring Information Technology Engineer seeking opportunities to apply analytical and technical skills to real-world problems. Contribute to impactful projects, and grow professionally in a dynamic organization, with hands-on experience in data analysis, and full-stack development, with focus on building efficient, scalable, and user-friendly solutions.

EDUCATION

B.Tech – Information Technology (Final Year)	2023 – Present
Walchand Institute of Technology, Solapur	CGPA: 8.3
12th Standard – HSC	2023
Patangrao Kadam College, Sangliwadi	Percentage: 58.33%
10th Standard – SSC	2021
City High School. Sangli	Percentage: 75.00%

EXPERIENCE

Data Science Internship	August 2025
3Skill	Certification ID: 3Skill-Intern-25-093
- Worked on data science workflows including data preprocessing, data cleaning and exploratory data analysis. - Applied Python libraries such as NumPy, Pandas to build and evaluate predictive models. - Gained practical exposure to end-to-end data science pipelines and real-world problem-solving in a professional setting.	

PROJECTS

SparesPulse: Predictive Inventory Management for Auto Spare Parts — Sponsored Project - Ongoing	2026
(Python, React, TypeScript, FastAPI, PostgreSQL, NumPy, Pandas)	
- Developing a predictive inventory system to manage automotive spare parts and optimize stock decisions. - Implementing VED classification and demand forecasting to support inventory and reorder planning. - Designing and developing a structured PostgreSQL database for storage and management of spare-parts, inventory, and transaction data.	
Real Estate Chatbot	2025
(Python, Machine Learning, NLP)	
- Developed an AI-powered Chatbot that analyzes user requirements and recommends the best properties using machine learning techniques. - Built recommendation logic by processing user input and matching it against property datasets using classification and filtering models. - Designed a conversational interface to improve user experience and simplify the property search process.	
Delivery Partner Web	2025
(Java, Web Development)	
- Built a Java-based web for fast, secure, and efficient delivery management between partners and customers. - Implemented core features including order tracking, partner assignment, and status updates with a focus on reliability and performance.	

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, JavaScript
Web Technologies: HTML, CSS, React.js
Database: SQL, MySQL
Tools: Excel, Power BI, GitHub
Libraries & Frameworks: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn
Core Concepts: DBMS, Computer Network, Operating Systems, OOPs

CERTIFICATIONS

Data Science Internship · 3Skill	2025
Hackathon · GTT Data Solutions Ltd.	2025
C Programming · Infosys Springboard	2024
Python Programming · Infosys Springboard	2024
Java Programming · Infosys Springboard	2024

ACHIVMENTS AND EXTRA-CURRICULARS

Finalist of GTT Solution Ltd. Hackathon 2025
Participated in Inter-college Basketball sports
